

To Our Readers:

This is the twenty-eighth edition of **George Mason University's Factbook**. Its purpose is to provide accurate and timely information about significant aspects of the university and its operations. The data presented in this Factbook includes the most current available for 2001-2002 as well as pertinent trend and historical information.

Most of the information contained in the Factbook is extracted from administrative reports produced on an annual basis by various university offices. The expert assistance and cooperation received from individuals in offices supplying Factbook data are sincerely appreciated.

We hope that you find the Factbook both informative and useful. If you have any questions, comments or suggestions concerning the Factbook, please feel free to call or write us at anytime.

UNIVERSITY PROFILE

George Mason University's growing reputation as an innovative educational leader is rooted in Virginia's strong educational tradition. By emphasizing the needs of its region--high technology, public policy, and the fine and performing arts--George Mason has created a curriculum and mission to meet the needs of Northern Virginia's extraordinary cosmopolitan constituency.

George Mason University is a distinctive and diverse metropolitan teaching and research university that serves the national capital region. Understanding the needs of the region and the future development of the commonwealth, George Mason University is poised to meet the challenges of the new millennium. The university is exploring new approaches to a variety of needs: new curricula for undergraduates, new advanced degrees supportive of the Information Age, new openings on the cutting edge of telecommunications, new arrangements between the corporate world and higher education, new ways to serve the region's network of urban centers, and new cooperative arrangements with state government agencies and the private sector. George Mason is committed to ensuring that each new program will meet the university's standard of excellence--a world-class teaching and research faculty for a region that demands and deserves the best.

ACHIEVEMENTS

- George Mason is known for its "firsts":
 - First engineering school based on computer-related programs
 - First school focused on computational sciences
 - First Ph.D.'s in conflict resolution, information technology, and bioinformatics
 - First in Virginia to offer an Information Technology minor to non-engineering students
- The School of Law is the youngest and fastest rising institution to be ranked in Tier 1 by U.S. News and World Report.
- Emeritus professor James Buchanan received the Nobel Prize in Economics in 1986 when he was teaching as a member of the Economics Department.
- George Mason ranks among the 40 most wired campuses in the United States (*Yahoo! Internet Life* magazine and ZDNet).
- George Mason has two McArthur Genius Fellows--student Deborah Willis and History professor Larry Levine.
- The School of Public Policy is ranked second only to Harvard in the amount of federal research dollars awarded.
- George Mason is one of only 20 universities nationwide to be ranked as a Center of Academic Excellence in Information Assurance Education by the National Security Agency.
- George Mason is among the top 10 schools in the nation in international enrollment.
- Enrollment at George Mason for Fall 2001 reached an all-time high with 24,897 students enrolled.

GEORGE MASON, 1725 - 1792

When George Mason of Gunston Hall wrote the Virginia Declaration of Rights in 1776, he gave the United States the noble concept that the rights of the individual must be protected against the power of government. By placing in Virginia's first constitution a list of rights that could never be taken away from citizens, Mason sought to ensure a society in which government could not become all-powerful.

As a result of his influence, the first 10 amendments, which we now know as the Bill of Rights, were added to the U.S. Constitution. The universal significance of this action made the American Revolution much more than a war for independence from Great Britain: it enshrined in our most important public document the principle that a government must always respect the rights of the people.

Mason, himself a slave owner, did not recognize that these rights extended to slaves. Nevertheless, his words were later used to demonstrate that slavery could not exist in a country that proclaimed its belief in human rights. In the United States, we have not always adhered to Mason's great ideas, but they remain the measure of the best in our national life.

HISTORY OF THE UNIVERSITY

George Mason University began as the Northern Virginia branch of the University of Virginia in 1957, offering courses in engineering and the liberal arts. Called University College, it opened in a renovated elementary school in Bailey's Crossroads with an enrollment of 17 students.

Eager to support this novice institution, the Town (now City) of Fairfax purchased 150 acres in 1958 and donated it to the University of Virginia in order for a permanent branch campus to be located in Northern Virginia. The following year, the University of Virginia Board of Visitors selected the name George Mason College. Construction of the campus's first four buildings (North, South, East, West), was completed in 1964. In September of that year, 356 students began their studies in the new classrooms.

In March 1966, the General Assembly authorized the expansion of George Mason College into a four-year, degree-granting institution and gave it the long-range mandate to expand into a major regional university. The first senior class received degrees in June 1968. Graduate programs began in September 1970 with the first master's degrees conferred in June 1971. The George Mason College Board of Control, supported by citizens of Alexandria, Falls Church, Arlington, and Fairfax counties acquired an additional 442 acres. By the end of 1970, the college's Fairfax Campus reached 571 acres; it is now 677 acres.

In 1972, the Board of Visitors of the University of Virginia recommended that the college separate from its parent institution. On April 7, 1972, the governor signed the General Assembly legislation that established George Mason University as an independent member of the commonwealth's system of colleges and universities.

In 1979, George Mason was given the authority to grant doctoral degrees and began offering programs at this level. In the same year, the university acquired George Mason University School of Law located at the Arlington Campus.

In 1984, the first Robinson Professors, a group of outstanding scholars committed to undergraduate teaching and interdisciplinary scholarship, joined the faculty as a result of a generous bequest from Clarence J. Robinson.

HISTORY OF THE UNIVERSITY (continued)

Drawing prominent scholars from all fields, George Mason's outstanding faculty also includes Pulitzer Prize winners, IEEE Centennial Medalists, and recipients of numerous grants and awards including Fulbrights, National Science Foundation, and National Endowment of the Arts, among others. Endowed chairs have also brought many artists and scholars to campus.

In 1985, George Mason University, in partnership with area businesses, developed an engineering program geared toward the emerging information technology field and started the School of Information Technology and Engineering. The School of Information Technology and Engineering (IT&E) is concerned primarily with study areas that involve integrating the information basis for modern engineering with the more conventional physical and materials science approach. The careful integration of these areas results in a unique academic experience for highly motivated students. Through IT&E, George Mason was the first in the country to offer a doctoral degree in information technology.

In 1990, the establishment of the Institute of the Arts, now known as the College of Visual and Performing Arts, solidified the university's commitment to make the arts a pervasive part of students' lives. The Center for the Arts and the arts complex, which includes an art gallery, art studio, a rehearsal space, and performing venues such as TheaterSpace, are all components of the College.

In April 1996, the innovative George W. Johnson Center opened. The Johnson Center's eight acres of floor space houses a 25,000-volume book collection, media center, computer labs, bank, bookstore, convenience store and food services. By combining student life resources with educational support, George Mason has created the learning workspace of the future. The center fosters university-wide learning by integrating students' curricular and extracurricular activities and by strengthening relationships among the university communities.

Since 1972, the university's development has been marked by rapid growth and innovative planning. In 29 years, enrollment has risen from 4,166 to 24,897 in Fall 2001. George Mason has expanded its presence to serve the entire Northern Virginia region by employing the revolutionary concept of the "distributed" university. In collaboration with county and state governments, the university established a campus in Prince William County. A partnership with American Type Culture Collection, the world's foremost archive of living cultures, has led to academic programs focusing on bioinformatics and makes Prince William County a center for biomedical technology. The Prince William Campus opened its doors in September of 1997. The university is also expanding its presence in Arlington, home of the George Mason University School of Law. In Fall 1998, the first new building for the Arlington Campus was completed. This is the first of a three-phase expansion plan. Upon completion of all three phases, the campus will have space to accommodate an increase in programming ranging from business to international transactions.

George Mason University has achieved national distinction in many areas. Its reputation continues to grow as the university provides for an educational, cultural, and economic resource for the people of Northern Virginia, the Commonwealth of Virginia, and the nation.

ABOUT GEORGE MASON UNIVERSITY

George Mason University is a distributed university with three campuses, each with a distinctive academic focus that plays a critical role in the economy of its region. At each campus, students and faculty have full access to all the university's resources, while duplication of programs and support services is minimized through the use of technology. In addition to the main campus in Fairfax, the university has campuses in Arlington and Prince William Counties.

FAIRFAX CAMPUS

The Fairfax Campus, situated on 677 acres of wooded land, offers a wealth of opportunities beyond the numerous academic programs. The George W. Johnson Center, the first building of its kind in the country, fosters university-wide learning by integrating students' curricular and extracurricular activities and by strengthening relationships between the university's communities. The Center for the Arts and the Patriot Center offer the George Mason and Northern Virginia communities numerous opportunities to experience the arts as well as sports and other entertainment. Professional artistic events presented on campus include music and dance from around the world; Theater of the First Amendment; and regional, national, and international visual art exhibitions. The Aquatics and Fitness Center provides state-of-the-art exercise equipment, and competitive and recreational swimming to the university community and outside teams.

More than 330 athletes compete in 22 men's and women's Division I NCAA sports: baseball, basketball, cross country, golf, lacrosse, rowing, soccer, softball, swimming and diving, tennis, indoor and outdoor track and field, volleyball, and wrestling.

Patriot men's and women's teams are members of the National Collegiate Athletic Association (NCAA) Division I, the Colonial Athletic Association (CAA), the Eastern College Athletic Conference (ECAC), the Intercollegiate Association of Amateur Athletes of America (IC4A), and the Eastern Intercollegiate Volleyball Association (EIVA).

ARLINGTON CAMPUS

The Arlington Campus course offerings focus on law, economics, public policy and public administration. In addition to the Law School being based at the Arlington Campus, there are several graduate programs based there as well.

The original building has been recently renovated to add new classrooms and university services. The School of Public Policy is also expanding its offerings to add masters, doctoral and affiliated research programs to the campus.

In 1996, ground was broken for construction of the first new building for the Arlington Campus. Completed in early 1999, the 132,000-square-foot building is the first one in a three-phase plan to develop the 5.2-acre site. The School of Law is housed on the first three floors and part of the fourth floor of the new building. The Mercatus Center, the James M. Buchanan Center for Political Economy, and the Institute for Humane Studies, an independent entity affiliated with the university, occupy the fourth floor. All these groups work together on projects of mutual interest.

Arlington County recently approved a \$5 million bond referendum to assist the University with the development of the second new building. Also, the University Foundation is working with the county in developing a commercial and parking structure next door to the campus.

The campus houses the Professional Center that works with the community on providing a venue for special events. The School of Information Technology and Engineering offers special certificate courses in information technology through its Train to Technology program.

PRINCE WILLIAM CAMPUS

The Prince William Campus is an integral part of George Mason's distributed University. The 124-acre campus serves all of Northern Virginia and provides convenient access to the university for citizens of Prince William, Fauquier, and western Fairfax County; the cities of Manassas and Manassas Park and adjoining areas to the west and south.

From the start, the campus has encouraged mutually beneficial relationships with the private sector. One example is the unique partnership between the School of Computational Sciences and the American Type Culture Collection, the world's foremost archive of living cultures, which share facilities along with ongoing research and workshop collaboration.

The primary focus of the campus is high-tech/bio-tech and emphasizes bioinformatics, biotechnology, forensic biosciences educational and research programs in addition to computer and information technology. Prince William Campus M.S. and Ph.D. bio-tech programs are based within the School of Computational Sciences (SCS), which was created from a merger of the Institute for Biosciences, Bioinformatics, and Biotechnology (IB3) and the Institute for Computational Sciences and Informatics. In addition, the campus offers creative programs of instruction, research, and public/private partnerships in a new higher education service district in the Prince William County area.

The 300-plus seat, state-of-the-art Verizon Auditorium and the 110,000-square-foot Freedom Aquatic and Fitness Center serve both university and community needs. The Freedom Center provides state-of-the-art exercise equipment, a full gymnasium, recreational and instructional swimming in the 50-meter competition pool, as well as the human performance laboratory, academic classrooms and other meeting space. The campus currently includes three buildings -- one academic, one research and academic, and the Freedom Center. Plans for a third academic building are currently underway.

TRADITIONS

School Colors: Green and Gold

School Nickname: Patriots

School Mascot: Gunston

The University Medallion, presented to the president during the inauguration, is the symbol of the authority of the office. Created in 1996, the medallion consists of the university seal, emblazoned with the words "freedom" and "learning" to symbolize those values that patriot George Mason held dear. In 1997, the medallion was presented as part of a presidential inauguration for the first time.

The University Mace marks another new tradition at George Mason. The university marshal carries a ceremonial mace on important university occasions, including the university's annual commencement. Artist Tom Ashcraft, a member of the Art Studio Division faculty, designed George Mason's mace. Simple and elegant in design, it is made of black walnut, one of Virginia's most beautiful indigenous woods. It is embellished with the university seal.

MISSION STATEMENT

The mission statement for George Mason University reads as follows:

George Mason University will be an institution of international academic reputation providing superior education enabling students to develop critical, analytical, and imaginative thinking and to make well-founded ethical decisions. The university will respond to the call for interdisciplinary research and teaching not simply by adding programs, but by rethinking the traditional structure of the academy.

The university will prepare students to address the complex issues facing them in society and to discover meaning in their own lives. George Mason will encourage diversity in its student body and will meet the needs of students by providing them with undergraduate, graduate, and professional courses of study that are interdisciplinary and innovative. The university will energetically seek ways to interact with and serve the needs of the student body.

The university will nurture and support a faculty that is diverse, innovative, and excellent in teaching, active in pure and applied research, and responsive to the needs of students and the community. The faculty will embody the university's interactive approach to change both in the academy and in the world.

The university will be a resource of the commonwealth of Virginia serving private and public sectors and will be an intellectual and cultural nexus between Northern Virginia, the nation, and the world.

*Adopted by the Board of Visitors
January, 1991*

VISION STATEMENT

In September 2000, President Alan Merten along with valuable input from people both inside and outside the university developed a vision statement that serves as an overriding guide under which the university's schools, colleges, and institutes will operate.

Titled "An Innovative University for the Information Age," is President Merten's vision for the university. "This statement represents what, in a sense, we as an institution of higher learning are and what we can become."

An Innovative University for the Information Society

George Mason will be the university needed by a region and world driven by new social, economic, and technological realities.

We are in the right place: The nation's capital region is the epicenter of the world's political web, its information and communications network, and its new economy.

We are ready: In an age that demands originality and imagination, George Mason is the region's most innovative university. George Mason will

- become a magnet for outstanding faculty who will devise new ways to approach problems, invent new ways to teach, and develop new knowledge for the benefit of the region and nation;*
- attract inventive, industrious students of all ages and cultures and produce citizens who are intellectually and technologically literate-people who will lead by the force of their ideas;*
- transform into knowledge and wisdom the vast amounts of information now accessible through new technologies;*
- build strong alliances that bring the know-how of business and the community into the university and take the knowledge of the university into the workplace and the larger society;*
- become a center of inquiry, knowledge, and professional expertise in fields with vital implications for human needs and opportunities in the future; and*
- remain innovative, resourceful, and responsive, while drawing on the intellectual and cultural heritage of the classical university.*

Alan G. Merten

GEORGE MASON'S PLAN FOR 2007

By 2007, George Mason will be closing in on our target enrollment of 30,000 students at our three campuses in Fairfax, Arlington, and Prince William, and through activities in Loudoun County. Reaching this target calls for an aggressive yet selective increase in enrollment between 2001 and 2007. The university will grow by nearly 1,000 students each year, an approximately 2 percent growth rate. The student population will expand at both the graduate and undergraduate level, with headcount enrollment split roughly 35/65 between the two. We will expand graduate programs to meet the growing workforce needs of the region, while the undergraduate population will increase to meet the accelerating demand for access to college in Virginia.

The needs of this dynamic region will drive programmatic developments. We will give major emphasis to academic and research programs in policy, information technology, the sciences, and the arts, with significant attention also to conflict resolution, management, nursing, and education. Research efforts, involving a mix of applied and basic research, will focus on partnerships with industry and government, and the level of external funding will have doubled to at least \$90 million a year. We will accentuate liberal arts education at the undergraduate level, including an innovative and focused core curriculum. All curricula will share a commitment to global education and research and to ensuring that students graduate with competence in current technologies.

We will undertake a major building program over the next six years, resulting in three new academic buildings at the Fairfax campus, a new research building, and possible public-private partnerships to create research park-like space on the west side of the campus. Additional housing units will add space for another 2,000 students, bringing the total to 5,000 students in on-campus residence. Major campus expansion will occur at the Prince William Campus, with one additional academic/research building, an arts center and expanded research space. At the Arlington campus, we will complete Arlington II, and begin planning for Arlington III. Publicly funded development at this campus will be supplemented by the development of adjacent land owned by the George Mason University Foundation.

While George Mason's students will continue to improve in quality as measured in traditional ways, they will increasingly match the culture of the institution in being innovative, entrepreneurial, curious and diverse in race, culture and age.

The Commonwealth of Virginia will continue to be the primary source of funding for George Mason, but private support will increase significantly. This plan is based on the premise that our endowment will grow by over 50 percent to \$60 million and annualized giving will exceed \$20 million annually.

FACTS AND FIGURES SUMMARY FALL 2001

CAMPUS SIZE

Fairfax Campus	677 acres
Arlington Campus	5.2 acres

CONSORTIUM OF UNIVERSITIES OF THE WASHINGTON METROPOLITAN AREA

George Mason University is a member of the Consortium of Universities of the Washington Metropolitan Area. Full participating consortium members are American University, The Catholic University of America, Gallaudet University, George Mason University, The George Washington University, Georgetown University, Howard University, Marymount University, Mount Vernon College, Trinity College, Southeastern University, University of the District of Columbia, and the University of Maryland-College Park.

Eligible students have the opportunity to benefit from the academic offerings of member institutions and to enroll for courses at any of the participating institutions. Students register and pay the tuition of their home institution for all consortium courses.

College of Nursing and Health Science

Lawrence Washington
College of Nursing and Health Science

ADMINISTRATION ORGANIZATIONAL CHART
AS OF OCTOBER 1, 2001

SOURCE: Office of the Provost

STATE COUNCIL OF HIGHER EDUCATION FOR VIRGINIA

The State Council of Higher Education for Virginia (SCHEV) is the Commonwealth's coordinating body for higher education. Established in 1956 by the General Assembly and the Governor, the Council's purpose is "to promote the development and operation of an educationally and economically sound, vigorous, progressive and coordinated system of higher education in Virginia." By statute, the Council makes policy recommendations to the Governor and General Assembly affecting Virginia's outstanding system of higher education in such areas as budget planning, enrollment projections, institutional technology needs, student financial aid, among others. The Council also implements a wide variety of higher education programs which benefit students, faculty, parents and taxpayers. SCHEV serves as a catalyst to promote greater access, quality, affordability and accountability throughout the system. SCHEV also helps policymakers, college administrators and other concerned leaders work cooperatively and constructively to advance educational excellence.

The Council of Higher Education consists of 11 members who are appointed by the Governor to four-year terms. The Executive Director of SCHEV, who is appointed by the Council, manages the day-to-day operations of the state agency and its 44-member professional staff.

As of October 2001, the members and officers of SCHEV are:

Dr. Carl N. Kelly
CHAIRMAN

Potomac Falls, Virginia
Appointed: November 18, 2000
Re-appointed: July 1, 2001
Current Term Expires: June 30, 2005

Karen F. Marcus
VICE CHAIRMAN

Richmond, Virginia
Appointed: July 1, 1998
Current Term Expires: June 30, 2002

Whitney Adams

McLean, Virginia
Appointed: May 10, 2000
Current Term Expires: June 30, 2003

Daniel T. Balfour

Richmond, Virginia
Appointed: July 1, 1999
Re-appointed: July 1, 2000
Current Term Expires: June 30, 2004

Rayford Harris

Richmond, Virginia
Appointed: July 1, 1998
Current Term Expires: June 30, 2002

Ruble Hord

Richmond, Virginia
Appointed: July 1, 1999
Re-appointed: July 1, 2000
Current Term Expires: June 30, 2004

Delceno C. Miles

Virginia Beach, Virginia
Appointed: May 10, 2000
Re-appointed: July 1, 2001
Current Term Expires: June 30, 2005

Robin Miner

Alexandria, Virginia
Appointed: July 1, 2001
Current Term Expires: June 30, 2005

John D. Padgett

Norfolk, Virginia
Appointed: July 1, 1995
Re-appointed: July 1, 1999
Current Term Expires: June 30, 2003

David G. Shuford

Richmond, Virginia
Appointed: November 18, 2000
Current Term Expires: June 30, 2002

BOARD OF VISITORS

The Board of Visitors (BOV) of George Mason University was created by an act of the General Assembly when the university became an independent institution. The act which established the Board of Visitors became effective April 7, 1972. The BOV is a corporate body serving under the leadership of a rector and a vice rector. The 16 members of the Board are appointed by the governor of Virginia on a rotating basis to serve four-year terms. A student representative (nonvoting member) is appointed by the Board of Visitors each year at the May meeting to serve a one-year term.

The 2001-2002 members of the BOV are:

RECTOR

The Honorable Edwin Meese, III
 Ronald Reagan Fellow in Public Policy
 The Heritage Foundation
Washington, D.C.

VICE RECTOR

Mr. W. Scott McGeary
 Area Public Affairs Manager
 Washington Gas
Springfield, Virginia

Mr. David E. Anderson
 Partner
 McGuire, Woods
Richmond, Virginia

Dr. Manuel H. Johnson
 Co-Chair and Sr. Partner
 Johnson Smick International, Inc.
Washington, D.C.

Mr. Mel Chaskin
 President and CEO
 Vanguard Research Inc.
Fairfax, Virginia

Mr. Scott LaRose
 CEO
 Advenix Communications, Inc.
Virginia Beach, Virginia

Mr. Sidney O. Dewberry
 Chairman
 The Dewberry Companies
Fairfax, Virginia

Dr. James Miller
 Citizens for a Sound Economy Foundation
Washington, D.C.

Dr. Edwin J. Feulner, Jr.
 President
 The Heritage Foundation
Washington, D.C.

Mr. Leonard Pomata
 Senior VP, Business Development Operations
 Oracle Corporation
Reston, Virginia

Dr. Richard H. Fink
 Executive Vice President
 Koch Industries, Inc.
Washington, D.C.

Mr. Gary J. Shapiro
 President and CEO
 Consumer Electronics Association
Arlington, Virginia

Ms. Dorothy Gray
 President

List of Abbreviations:

CAS	College of Arts and Sciences
SCS	School of Computational Sciences
ICAR	Institute for Conflict Analysis Resolution
GSE	Graduate School of Education
IT&E	School of Information Technology and Engineering
LAW	School of Law
SOM	School of Management
CNHS	College of Nursing and Health Science
SPP	School of Public Policy
CVPA	College of Visual and Performing Arts
UNDE	Undeclared Majors

Over the last two years, new enrollees have increased in the Graduate School of Education, School of Information Technology and Engineering, School of Law, College of Nursing and Health Science, School of Pulic Policy and the College of Visual and Performing Arts. These increases were offset by a smaller percentage of new enrollees in the College of Arts & Sciences and undeclared majors.

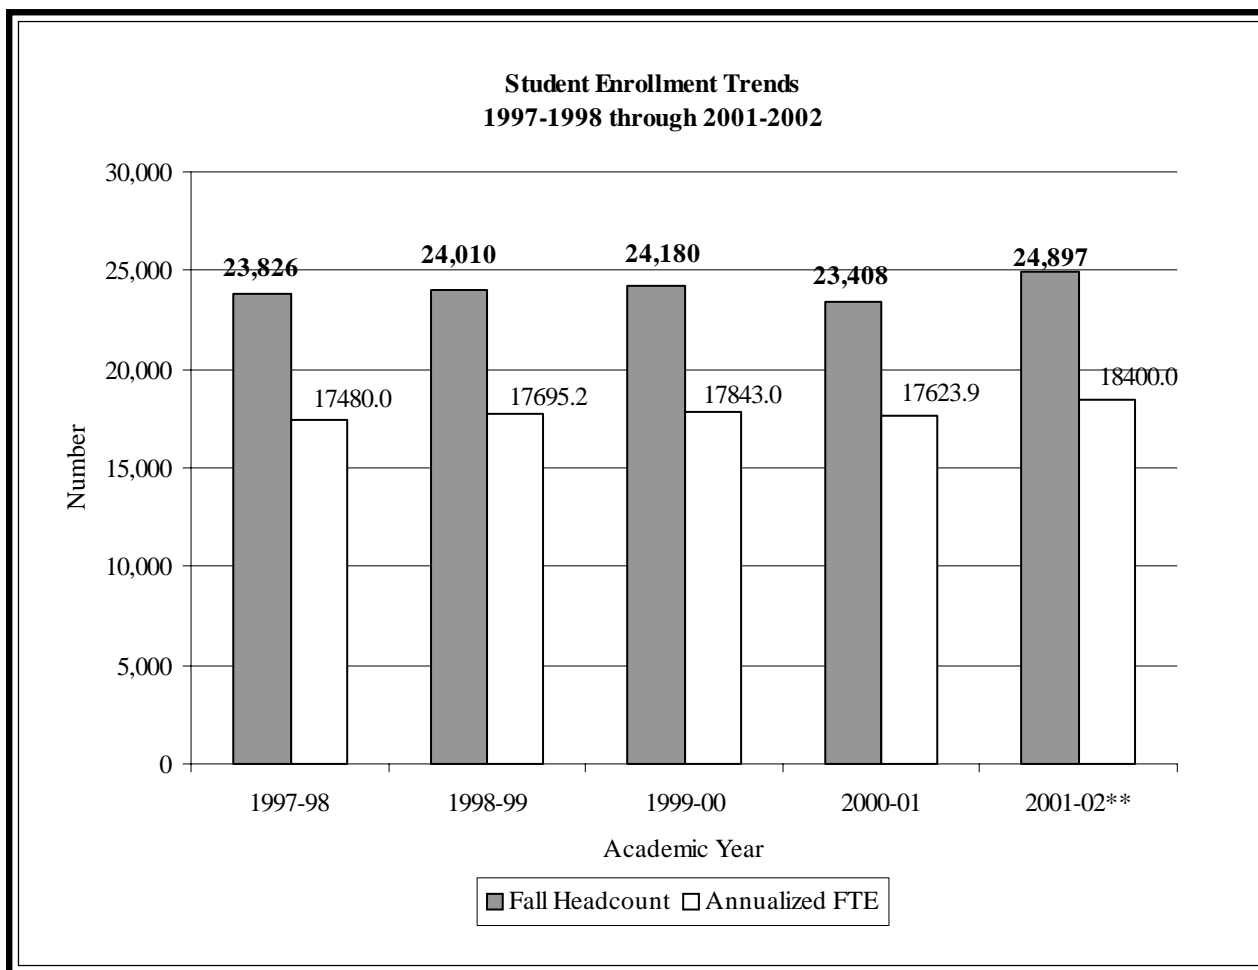

Figure 4.1

*Fall Headcount is based on census data; Annualized FTE is based on end of term (Course Enrollment) data.

**2001-02 FTE is estimated.

The Fall 2001 headcount of 24,897 is the highest in George Mason's history and is 6.3% higher than the Fall 2000 headcount.

**TRENDS IN STUDENT DEMOGRAPHICS
FALL 1996 THROUGH FALL 2001**

* Due to flexible scheduling, beginning in Fall 1995, some end-of-summer enrollments were reported in the fall census. This reporting method created high enrollments for Fall 1995 and Fall 1996. Per directions from SCHEV, these enrollments are now being counted in the summer. Therefore, the data for Fall 1997 and 1998 appear to show a drop from Fall 1996, when this is simply a result of a change in reporting methods. Annual data are not affected.

TRENDS IN FIRST YEAR PERSISTENCE, PROGRESSION AND RETENTION RATES OF ENTERING FULL-TIME FIRST-TIME FRESHMEN

Table 4.3

Entering Cohort		Persistence		Progression		Retention	
Year	N	N	%	N	%	N	%
1990	1,721	1,272	73.9	621	36.1	651	37.8
1991	1,681	1,246	74.1	593	35.3	653	38.8
1992	1,734	1,363	78.6	667	38.5	696	40.1
1993	1,672	1,242	74.3	599	35.8	643	38.5
1994	1,728	1,278	74.0	582	33.7	696	40.3
1995	1,854	1,385	74.7	681	36.7	704	38.0
1996	1,877	1,384	73.7	693	36.9	691	36.8
1997	1,936	1,376	71.1	694	35.8	682	35.2
1998	2,024	1,539	76.0	745	36.8	794	39.2
1999	2,035	1,539	75.6	708	34.8	831	40.8
2000	2,099	1,652	78.7	839	39.9	813	38.7

The 2000 persistence rate of 78.7% is the highest it has been in the past ten years. The percentage of students progressing to the next level is also the highest at 39.9%.

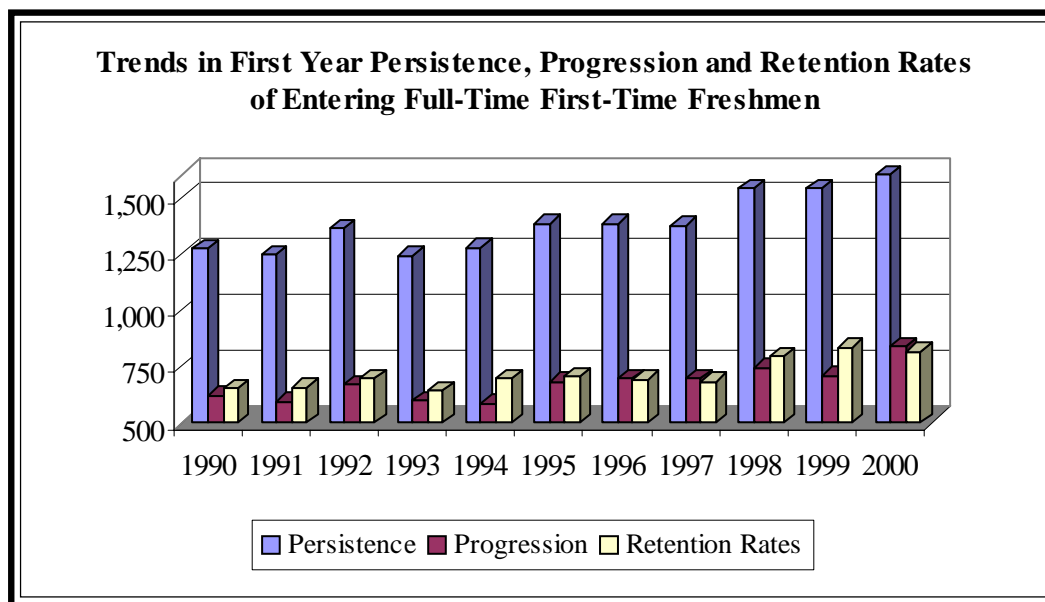

Figure 4.2

Definitions:

Persistence Rate: students returning to the same institution regardless of their program-placed level (sum of progression rate and retention rate)

Progression Rate: students returning to the same institution at a higher, program-placed level (e.g., freshman to sophomore)

Retention Rate: students returning to the same institution but not progressing to a higher, program-placed level

TOTAL UNIVERSITY DEGREE PROGRAMS OFFERED

Bachelors	55	
Master's	54	
Doctoral	14	
First Professional	1	
Total	124	<i>Note: This total reflects only current degree programs accepting new students.</i>

CERTIFICATES OFFERED: ACADEMIC YEAR 2001-2002

CERTIFICATE PROGRAMS:**Undergraduate Certificate Programs Offered****College of Arts and Sciences**

Child Welfare
 Environmental Chemistry
 Environmental Management
 Leadership Studies
 Teaching English as a Second Language

College of Nursing and Health Science

Gerontology

School of Information Technology and Engineering

Applied Statistics
 Operations Research and Engineering

Graduate Certificate Programs Offered**College of Arts and Sciences**

Administration of Justice
 Advanced Graduate Studies in Psychology
 Association Management
 Community College Education
 Environmental Management
 Information Policy and Administration
 Nonprofit Management
 Professional Writing and Editing
 Teaching of English as a Second Language

School of Computational Sciences

Computational Techniques and Applications

Graduate School of Education

Advanced Studies in Teaching and Learning
 Alternative Education
 Applied Behavior Analysis
 Assistive Technology
 Early Childhood Education
 History
 Instructional Technology
 Integration of Technology in Schools
 Library Media
 Literacy
 Mathematics
 Multimedia Development
 School Counseling Leadership
 Science Education

School of Information Technology and Engineering

Command, Control, Communications and Intelligence
 Computational Modeling
 Computer Networking
 Communications and Networking
 Discovery, Design and Innovation
 E-commerce

Graduate Certificate Programs Offered (continued)

Federal Statistics
 Information Engineering
 Information Systems Security
 Operations Research and Engineering
 Military Operations Research
 Signal Processing
 Software Systems Engineering
 Systems Engineering for Computer, Information,
 and Software Intensive Systems
 VLSI Design/Manufacturing

College of Nursing and Health Science

Conflict Resolution for Health Professionals
 Gerontology
 International Nursing
 Nursing Administration
 Nursing Education
 Quality Improvement and Outcomes Management
 in Health Care Systems

School of Public Policy

Collaboration and Learning in Policy Organizations
 Culture and Values in Social Policy
 Global Trade Management
 Governance Systems and Policy Management
 International Business Planning
 International Institutional Policy
 International Market Analysis
 Managing International Commerce
 Organizational Informatics in the Policy Enterprise
 Regional Economic Development and Technology Policy
 Regional Trade Policy and Planning
 Science and Technology Policy
 Science, Technology, and the Global Economy
 Transportation and Logistics Policy

DEGREES AND CERTIFICATES AWARDED

Table 5.1

Degrees and Certificates Conferred by Academic Division
Academic Year 2000-01

	First					Total

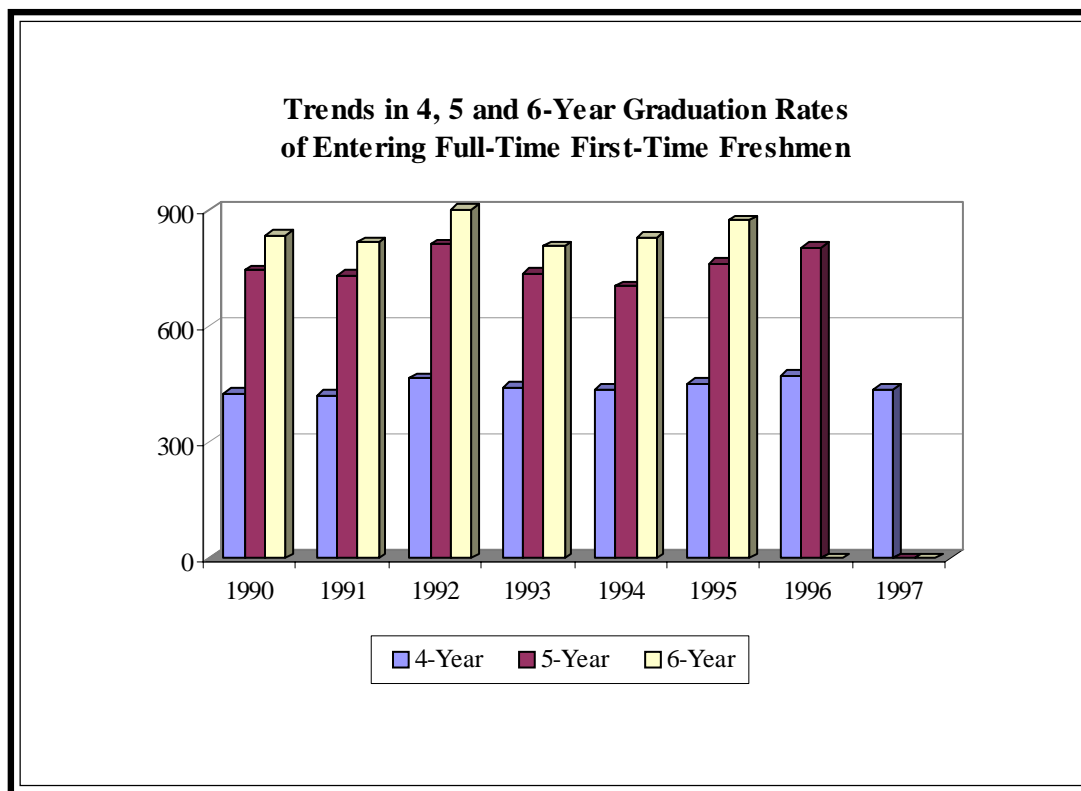

Figure 5.2

INSTITUTIONAL ASSESSMENT GRADUATING SENIOR SURVEY RESULTS

Table 5.4

Each semester, graduating seniors are given an opportunity to complete the Graduating Senior Survey at the same time they file for graduation. A high percentage of students complete the survey on-line while others complete paper versions. This year, 2410 seniors completed the survey for a response rate of 86.1%. The tables below provide samples of responses from the 2000-2001 survey (seniors graduating in summer and fall 2000, spring 2001). For a complete review of the results, please visit the Office of Institutional Assessment's website at assessment.gmu.edu

UNIVERSITY LIBRARIES

George Mason University Libraries is comprised of the Charles Rogers Fenwick Library and the George W. Johnson Center Library on the Fairfax Campus and the Arlington Campus and Prince William Campus libraries. The School of Law Library, which is administered separately, is located on the Arlington Campus. All of the libraries offer support for student, faculty, and staff teaching, learning, research, and service and outreach activities. In addition, the Libraries' resources and services are accessible on-site to the University's surrounding communities and the general public.

Expanded academic support services of the University libraries also include:

- **University Copyright Assistance Office:** provides guidance and assistance on copyright and fair use issues. Located in Johnson Center Rooms 120 and 121, office staff advise the university community in areas such as classroom teaching and technology, online courses, distance education, university publications, university web sites, networked library collections and services, electronic course reserves, and electronic database licensing.
- **University Dissertations and Theses Service:** in cooperation and coordination with the Office of the Provost and the Graduate Council, assistance is provided to the University's graduate programs through centralized management of the process for student submission of theses and dissertations.
- **Statistical Support Services:** special expertise is available for students and faculty who need assistance with statistical software packages (quantitative and qualitative research).

The Libraries' information technology assisted and enhanced services and programs include:

- An online library management system – Voyager — employed to conduct many aspects of library operations (acquisition of materials, cataloging, circulation, course reserves, management reporting), as well as provide an online public access catalog (OPAC) which reflects the holdings of all George Mason University libraries.
- The Libraries' Web site provides access to a variety of networked resources and services (nearly 400 licensed scholarly digital databases many of which are full-text), including links to thousands of electronic journals; patron-initiated circulation; online reference assistance; and web-based communication with library staff for document delivery requests; requests for acquisition of specific resources; placement of materials on reserve for designated courses; and other services.
- A Web-based Electronic Reserves module allowing students to access materials on course reserve remotely.
- Microform to digital format output technology, and statistical software packages and Geographic Information System (GIS) software.
- Over 200 networked computer workstations, connected to laser printers, available for student and faculty use in designated "public" areas in all of the libraries.
- In addition, the University community benefits from ready access to the ALADIN system – the Washington Research Libraries Consortium (WRLC) online union catalog of academic library holdings and other resources and services in the national capital metropolitan region.

Complementing our commitment to information technology, the Libraries' Liaison Librarian program matches subject specialist librarians with academic units to provide strong support for a number of cooperative and collaborative programs. The Libraries provide an inter-campus delivery service for students and faculty requesting materials held at any one of the other George Mason libraries. Materials not held within the University Libraries system may be obtained by direct patron initiated borrowing from WRLC institution libraries, by interlibrary loan, or through commercial document delivery services where warranted.

The University Libraries is staffed by a dedicated and service-oriented team consisting of: 102 full-time professional and support personnel, 11 graduate research assistants, and approximately 100 part-time student assistants and wage employees. Approximately 40 percent of the full-time staff is comprised of administrative and professional faculty (primarily librarians) with accredited graduate-level degrees in library/information sciences, and many possessing advanced academic discipline-based degrees as well.

Through membership and active participation in local, regional and national consortia the George Mason University libraries are able to better respond and meet the needs of the University's growing and diverse academic and research programs. Current inter-institutional affiliations include: VIVA – The Virtual Library of Virginia Program (a Commonwealth of Virginia funded electronic resources program for public higher education institutions), Washington Research Library Consortium (whose membership, besides George Mason, includes American, Catholic, District of Columbia, Gallaudet, George Washington, and Marymount universities), Association of Southeastern Research Libraries (includes over 30 university libraries in the ten-state region), Center for Research Libraries (the Chicago, IL based "research library" for research libraries whose multi-million volume holdings are comprised of specialized and uniquely held materials in North America), and the international Online Computer Library Center (OCLC) whose extensive computerized system and network facilitate national and international library resource sharing activities.

FENWICK LIBRARY

Fenwick Library is the main research library of the University. Fenwick holds most of the Libraries' book collections, as well as current and bound journals, microforms, special collections and archival materials, government documents, and maps. Fenwick also offers access to a large number of electronic resources: networked and stand-alone CD-ROMs; the Libraries' online catalog; bibliographic and full text databases; electronic journals; and Internet/Web accessible resources. Librarians provide reference service during regularly scheduled hours in person, through the telephone, and by e-mail; they also teach instruction classes to students in specific programs and departments on information search strategies and sources, and offer individual appointments for in-depth research consultation. Through the library liaison program, librarians work with academic departments to develop local collections and electronic resources. The overarching goal of these activities is to assist students at all levels—undergraduate and graduate—as they become more sophisticated library and information technology users throughout their careers at the university, as well as facilitate faculty endeavors relating to teaching, learning, and research.

Also in Fenwick is the Special Collections and Archives Department. Special Collections and Archives collects, organizes, and preserves books, manuscripts, photographic images, and other items of historical or special interest to the university community; scans and digitizes some especially noteworthy materials for research use (available on the University Libraries web site); and provides "finding aids" for identification and use of special and archival materials. The George Mason University "Authors" collection is also housed in this department. In addition, the department in cooperation and coordination with the Office of the Provost and the Graduate Council provides assistance to the University's graduate programs through centralized management of the process for student submission of theses and dissertations.

Another significant resource of primary research materials held in Fenwick Library is the Government Documents and Maps collection. With both federal and Virginia state documents included, this collection contains items from the administrative, legislative, and judicial branches of government, and constitutes an invaluable source of research materials for students and faculty in a variety of academic disciplines. The Maps collection includes maps produced by the U.S. Geological Survey, as well as commercially published maps and atlases. As a selective depository library, Fenwick receives approximately 50% of the material available through the Federal Depository Library Program, which makes information available to citizens through designated libraries from the world's largest publisher—the U.S. Government. Special expertise is available to assist students and faculty in using and interpreting both print and electronic government information. In addition, special expertise is available for students and faculty who need assistance with statistical software packages and Geographic Information System (GIS) software.

Additional services available at Fenwick Library include the Periodicals and Microforms collections, Circulation, Document Acquisition and Delivery (Interlibrary Loan), and Resources and Collection Management Services departments. The Office of the University Librarian is also located in Fenwick Library.

JOHNSON CENTER LIBRARY

The Johnson Center Library is part of the George W. Johnson Center, an integrated learning environment at George Mason University. The primary service areas of the Johnson Center Library have been conceived as a prototype of an electronic “gateway” library that supports information access and research activities through the Libraries’ information technology systems and the Internet/World Wide Web. Electronic access to scholarly information is supported by a print reference collection, multi-media collection, and a growing circulating book collection comprised of core texts and readings reflecting the interdisciplinary and multicultural emphasis in the university’s undergraduate curriculum. The Johnson Center Library especially supports interdisciplinary programs such as the College of Arts and Sciences’ New Century College program through its collections and outreach programs. The library also holds designated discipline-based circulating collections in the areas of music and education.

The Johnson Center Library emphasizes teaching the novice researcher to use library and information resources more confidently in the Johnson Center Library itself, as well as in other libraries and through other channels, whether an area public library, a corporate setting, or from a desktop computer at home. The teaching of the Johnson Center Library provides a foundation for library users in critical thinking skills as they navigate more complex layers of information throughout their academic careers. The teaching/learning mission of the Johnson Center Library is also an indispensable part of the overall teaching/learning mission of the Johnson Center itself.

The Johnson Center Library also serves as the center for multi-media materials and services for the University library system. The multi-media collection includes materials in a variety of formats – videotapes, CD’s, audiotapes, laserdiscs, and interactive video discs. The video collection of videocassettes and laserdiscs includes documentaries and educational titles from a wide range of disciplines as well as an extensive collection of feature films. The audio collection of compact discs and L.P. records includes a large classical and jazz music selection, as well as popular music titles. This collection also includes audiocassettes, primarily unabridged “books on tape” editions of classic literature. The multi-media CD-ROM collection contains titles in the Arts, Humanities, and Sciences. Also available is “the Video Encyclopedia of the 20th Century,” a unique collection of 40+ videodiscs which can be used to copy historic video clips to VHS tape for use in class projects, multimedia production, and other activities. All of these materials are available for viewing and/or listening in the library; some are available for external circulation to the University’s students, faculty, and staff.

The Johnson Center Library also provides course reserve materials for students on the Fairfax Campus. The Libraries-wide electronic reserves service is also managed at this library. A collection of periodicals (foreign newspapers and general interest magazines and journals) and a leisure reading collection round out the Johnson Center Library’s collections and services.

Other notable resources of the Johnson Center Library include an electronic state-of-the-art group instruction room that can accommodate up to 36 persons, and an adaptive technology assistance room for use by persons with physical disabilities.

ARLINGTON CAMPUS LIBRARY

The Arlington Campus Library, located on the Ground Floor of the “original building,” is a full-service research facility supporting the teaching and research needs of the non-law Mason students, faculty, and staff on this campus. The library’s collection emphasizes international relations and commercial transactions as well as nonprofit management, education, business, finance, trade, and related policy issues. The library holds a core reference collection and is a depository for European Union Documents. Further, the library houses approximately 22,000 pre-1980 bound journal volumes in all disciplines (transferred from Fenwick Library due to space conservation reasons in 1999).

Library staff provide assistance and instruction for faculty, staff, and students in identifying and using various resources. A critical component of the Arlington Campus Library services is access to electronic resources and networked services, as well as inter-campus document delivery requests.

PRINCE WILLIAM CAMPUS LIBRARY

Prince William Campus Library (PWL) supports the programs and courses offered at the Prince William Campus. Programs include Administration of Justice; Bioscience; Biotechnology; Business; Computer Science; Education; Nursing; and Health, Fitness and Recreation Resources. PWL is located on the first floor of Academic Building I and offers a full complement of services including access to networked electronic resources and services; course reserves; circulation and reference services; multimedia materials; interCampus and interlibrary loan; instruction in the use of research tools; and assistance with developing strategies for conducting self-guided research. Integrating print, video and electronic resources to meet the research needs of PWL patrons, the emphasis is on instruction in and assistance with the use of electronic resources and computing applications. Within Prince William County, PWL is fostering partnerships for the provision of information resources for PWL patrons, as well as offering information services to the rapidly expanding corporate and technology presence.

Through institutional affiliation, the PWL also provides library support and services to the research personnel of the American Type Culture Collection — George Mason's corporate partner at Prince William campus.

SCHOOL OF LAW LIBRARY

The George Mason School of Law Library combines a growing collection with a high level of information technology support to ensure that students and faculty have optimal access to all available resources for serious legal scholarly study and research.

Located on three floors of the Law School building on the Arlington Campus, the library offers 340 study carrels and table seats. Separate seminar and computer rooms within the library allow for group study/discussion and computer activities. The library's collection consists of approximately 400,000 volumes and volume equivalents, featuring American legal court reports, statutes, encyclopedias, digests, and indices. The library also holds more than 5,000 law reviews and law-related journals and other serials. The library's collections are particularly strong in law and economics, business, banking, economic history and theory, ethics, philosophy, tax, international law, and patent law. As a Federal Government Depository Program participant, the library also regularly receives administrative decisions, executive agency reports, and other related government documents.

Information technology is the key to the management and effective use of the resources and services of the Law Library. The Law Library shares and uses all of the library and information technology resources of George Mason University Libraries (mentioned above), as well as the consortia resource sharing arrangements and networked digital resources (e.g., VIVA, WRLC) as part of the University library system. In addition, there are two major, full-text computer-assisted legal research systems only available at the Law Library: LEXIS and WESTLAW. They are both available to the law students and faculty of George Mason University for educational and research purposes. Although these two legal research systems differ, each includes the full text of judicial opinions and rulings, statutory materials, administrative regulations and decisions, and other legal and law-related resource materials. The School of Law Library is staffed by 16 full-time employees and additional part-time personnel.

SOURCE: George Mason Universities Libraries

TERMS AND DEFINITIONS

APPLIED/APPLICATIONS/APPLICANTS

The number of admission applications submitted for the reporting term. Individuals submitting multiple applications (e.g., applying for both an undergraduate and a graduate program, or more than one graduate program) are counted once for each application submitted; consequently, the count of graduate applied/applicants/applications may be greater than the number of individuals seeking admission to the university.

APPROVED/APPROVALS

The number of applications that resulted in an offer of admission into the applied-for program for the reporting term, including provisional admissions and other qualified admission statuses.

CERTIFICATE

A formal award certifying the satisfactory completion of a postsecondary program, but which does not qualify as a degree program.

CLASS LEVEL/STUDENT LEVEL**UNDERGRADUATE DEGREE-SEEKING:**

- *Freshman*: A student who has fewer than 30 earned credit hours.
- *Sophomore*: A student who has 30-59 earned credit hours.
- *Junior*: A student who has 60-89 earned credit hours.
- *Senior*: A student who has at least 90 earned credit hours.

GRADUATE DEGREE-SEEKING:

- *Certificate*: A student whose primary program of study is one leading to a post-baccalaureate certificate.
- *Master's*: A student whose primary program of study is one leading to a master's degree.
- *Doctoral Pre-Candidate*: A student whose primary program of study is one leading to a doctoral degree who has not yet completed requirements for advancement to degree candidacy.
- *Doctoral Candidate*: A student whose primary program of study is one leading to a doctoral degree, who has met the university and departmental standards for advancement to degree candidacy. The standards normally include successful completion of all required course work and departmental candidacy examinations.

PROFESSIONAL (LAW) DEGREE-SEEKING:

- Law students are classified as Law Day (full-time program) or Law Evening (part-time program) and by year in program, which is 1, 2, or 3 for Law Day students and 1, 2, 3, or 4 for Law Evening student.

NON-DEGREE-SEEKING:

- Non-degree seeking students are classified only as undergraduate, graduate, or law, based on the level of the coursework being pursued.

CLASSIFICATION OF INSTRUCTIONAL PROGRAMS (CIP) CODE

Six-digit code that classifies instructional programs. The 1990 revision is the version currently in use.

CONTRACT COURSE

A course offered by contractual arrangement that may be paid for as a unit rather than via tuition charges to individual students.

CREDIT HOUR

A unit of measure of course work, independent study, or a related activity, that can be applied toward meeting the requirements of a degree, certificate, or other formal award.

DEGREE-SEEKING STUDENT

A student enrolled in courses for credit who is recognized by the institution as seeking a degree or formal award.

ENROLLED/ENROLLEES

Students registered for more than zero credit hours on the census date for the reporting term. New enrollees approved for admission to multiple programs are counted only once, under the program designated as their primary program of study.

FIRST-TIME FRESHMAN

- *Admissions*: An applicant who has never attended any postsecondary institution since graduation from high school, or whose only postsecondary enrollment was in the summer term immediately prior to a fall applied-for term.
- *Student enrollment*: New students who qualify as first-time freshman admissions, including those with sufficient Advanced Placement credit to be granted sophomore class standing.

EXTENDED STUDIES

The enrollment program that serves non-degree-seeking students.

TERMS AND DEFINITIONS

FULL-TIME EQUIVALENT (FTE) STUDENT

A statistic derived from the student-credit hour productivity of the institution. In non-summer terms, the number of FTE students is obtained by dividing the total number of undergraduate, first professional (law), and graduate credit hours per term by 15, 15, and 12 respectively. The number of FTE students in summer, and annualized regular session (fall and spring semesters) is obtained by dividing the total number of undergraduate, first professional, and graduate credit hours per session by 30, 30, and 24 respectively. This definition should be distinguished from the definition of a full-time student.

FULL-TIME STUDENT

An undergraduate student enrolled for 12 or more credit hours in a term, a graduate student enrolled for 9 or more credit hours in a term, or a law student classified as a day student in a term.

GRADUATE STUDENT

A student enrolled in a master's, doctoral, or post-baccalaureate certificate program, not including law students. A non-degree-seeking student enrolled in graduate-level classes is also considered a graduate student.

GUEST MATRICULANT

A student taking course work at George Mason and applying the credit toward a degree at another institution.

HEADCOUNT STUDENT

The number of students enrolled for more than zero credit hours in courses offered for degree or certificate credit, including students who are not admitted to a degree program (extended studies). When student headcount is reported by academic division/department, the headcount is attributed to the department that administers the student's primary program of study.

IN-STATE STUDENT

A student whose official domicile is in the commonwealth of Virginia.

LOWER DIVISION--BACCALAUREATE

- *Courses*: courses that are part of a baccalaureate program, generally taken by freshmen and sophomores, with course numbers in the range 100-299.
- *Students*: students classified as freshmen or sophomores (those with fewer than 60 earned credit hours).

NEW STUDENT

A student whose enrollment in the term is the consequence of an application for admission for the term.

NON-DEGREE-SEEKING GRADUATE STUDENT

A student enrolled in graduate-level courses for credit who is not recognized as accepted into a degree or certificate program and who cannot be classified by student level.

NON-DEGREE-SEEKING STUDENT

A student enrolled in courses for credit who is not recognized as seeking a degree or certificate.

NON-DEGREE-SEEKING UNDERGRADUATE STUDENT

A student enrolled in undergraduate-level courses for credit who is not recognized as seeking a degree or certificate and who cannot be classified by student level.

NON-RESIDENT ALIEN

A person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely. (Source: IPEDS)

OUT-OF-STATE STUDENT

A student whose official domicile is not the commonwealth of Virginia, and who therefore does not ordinarily qualify for in-state tuition rates.

PART-TIME STUDENT

An undergraduate enrolled for fewer than 12 credit hours in a term, a graduate student enrolled for fewer than 9 credit hours in a term, or a law student classified as an evening student in a term.

POST-BACCALAUREATE CERTIFICATE

An award that requires completion of an organized program of study beyond the level of a bachelor's degree, but which does not meet the requirements of academic degrees carrying the title of master.

PROGRAM/ACADEMIC PROGRAM

A combination of courses and related activities organized for the attainment of broad educational objectives.

TERMS AND DEFINITIONS

RACE/ETHNICITY

Categories used to describe groups to which individuals belong or with which they identify. The categories do not denote scientific definitions of anthropological origins. A person may be counted in only one group. In official reporting only U.S. citizens and permanent residents (resident aliens) are grouped by race/ethnicity. The groups used to categorize all students are:

- African American/Black, Non-Hispanic
- American Indian or Alaskan Native
- Asian or Pacific Islander
- Hispanic
- White, Non-Hispanic
- Non-Resident Alien

RE-ADMITTED STUDENT

A student returning to the institution after an unofficial absence to resume a program of study, who has not attended another postsecondary institution during the absence, and whose re-enrollment requires formal approval. Formal approval to re-enroll is normally required after an unofficial absence of two or more non-summer terms, or after being formally dismissed. In most reporting, re-admitted students are counted among returning/continuing students. Students who attend another post-secondary institution during an unofficial absence are required to submit a complete application for admission, and are counted among new students.

RESIDENT ALIEN

A person who is not a citizen or national of the United States, and who has been lawfully admitted for permanent residence (and who holds alien registration receipt cards Form I-551/155). (Source: IPEDS)

RETURNING/CONTINUING STUDENT

A student whose eligibility to enroll in the term does not require the submission of a formal application for admission.

TRANSFER STUDENT

A student entering the institution for the first time or re-entering to resume a prior level, and known to have previously attended a postsecondary institution at the same level. A student who was dual-enrolled at a college or university while still enrolled in high school is counted as a first-time freshman, not as a transfer student.

UNCLASSIFIED STUDENT

A student whose enrollment cannot be classified by student level.

UPPER DIVISION--BACCALAUREATE

Courses: courses that are part of a baccalaureate program, generally taken by juniors and seniors, with course numbers in the range 300-599.

Students: students classified as juniors or seniors (those with at least 60 earned credit hours).

TERMS AND DEFINITIONS

DEFINITIONS FOR FACULTY AND STAFF**ADMINISTRATIVE/PROFESSIONAL FACULTY**

Administrative/professional faculty perform work directly related to the management of the activities of the university. Incumbents in administrative faculty positions exercise discretion and independent judgement and generally direct the work of others. Professional faculty require advanced learning and experience acquired by prolonged formal instruction and/or specialized work experience. This category is normally limited to librarians, counselors, coaches, and other professional positions.

EMINENT SCHOLAR STIPENDS

Monies paid from GMU Foundation endowment funds and the State Eminent Scholars Matching Program to supplement the salaries of eminent full-time scholars such as the Robinson Professors.

FULL-TIME FACULTY

Full-time, instructional and research personnel holding the traditional ranks of professor, associate professor, assistant professor, and instructor. Designated as instructional or research faculty.

GRADUATE ASSISTANTS

Enrolled graduate students holding the positions of graduate teaching assistant or graduate research assistant. Traditionally, these positions are 20 hours per week.

INSTRUCTIONAL FACULTY

Faculty whose primary funding is from an Educational and General ledger one instructional account and whose primary purpose is instruction. Most salary comparisons such as AAUP are based only on full-time, instructional faculty.

PART-TIME FACULTY

Part-time or adjunct faculty hired for instruction with semester or year-long contracts.

RESEARCH FACULTY

Faculty whose primary funding is from a research account and whose primary purpose is research.

RESTRICTED/FIXED TERM FACULTY

Faculty not eligible for tenure, hired under contracts of fixed terms.

PROBATIONARY/TENURE TRACK/TENURE STREAM FACULTY

Faculty eligible for, but not yet awarded tenure.

TENURED FACULTY

Faculty awarded appointments without a fixed term, with periodic review.

TERMINAL DEGREE

The highest earned degree in a discipline. In most cases, this is the doctorate (Ph.D./Ed.D.). In the fine arts, the M.F.A. or master's degree is considered the highest, appropriate degree. The J.D. in law is considered a professional degree.
